STUDENT LEARNING OUTCOMES

Upon completion of this course, a student will be able to solve trigonometric equations, convert between Cartesian and polar coordinates, and analyze equations of central conics.

TOPICS COVERED

Trigonometric functions, identities and equations, conic sections, complex numbers, polar coordinates, vectors, matrix algebra.

PREREQUISITE

One of the following: ACT 27, SAT 610, Math 126 C, Accuplacer EA 80 and CLM 84

GRADING

Your course grade will be determined by the following:

| | |
|-----------------------|-----|
| Homework | 15% |
| Recitation Activities | 15% |
| Exams | 45% |
| Final Exam | 25% |

The grading scale will be as follows:

No rounding up will be done, no exceptions. You need at least a D to pass this class and earn core math credit. You need at least a C to move on to the next math class.

HOMEWORK

All homework assignments are to be completed on www.MyMathLab.com. Due dates will be posted online. It is your responsibility to keep up with the homework and due dates. You may work on your homework after the due date with a 50% penalty until midnight of the day before the next exam. You are allowed to work on homework with your classmates, a tutor, or in the math center. Getting help on homework is encouraged and is not considered cheating.

All students must register for this course online by going to www.MyMathLab.com and following the instructions. You will need a valid email address, course ID (**The course ID for this class is [petersen79475](#)**) and student access code (comes with textbook or is purchased online) to register. All students must register by Friday, September 2. If you need assistance registering, please call tech support at 1-800-677-6337.

RECITATIONS

Every Friday you will have a recitation section led by our TA. There will be graded quizzes, group work, and other activities in recitations that will make up 15% of your overall grade. There will also be time for you to ask questions from lecture or homework, so you are encouraged to review the week's homework **before** recitation. Your two lowest recitation scores will be dropped at the end of the semester. Absolutely no early or late quizzes/activities will be given. Your TA will give you a syllabus with their policies and contact information at the first recitation. It is your responsibility to make sure that your recitation grades are entered correctly on the MyMathLab gradebook. Any grading error must be reported to the instructor or TA in writing within 1 week of posting.

EXAMS

There will be 3 exams and a comprehensive final exam. Please see the class schedule below for exam dates. Exams will be a combination of multiple choice and free response. Free response may or may not be graded with partial credit. A scientific calculator will be allowed on Exam 3 and the Final Exam. Formula sheets may be provided for some exams. You must have your UNR student ID with you for all tests. If you are late to an exam 10% will be deducted from your exam score. Any student participating in official school activities that will interfere with tests must make arrangements with me two weeks prior to the test that will be missed. Any student requiring accommodations through the DRC must schedule their exams on the same day as the in class exam. No late or early exams will be given unless you have a documented medical emergency. It is your responsibility to make sure that your exam

grades are entered correctly on the MyMathLab gradebook. Any grading error must be reported to the instructor or TA in writing within 1 week of posting.
